

Verification material required for books and book chapters

The University of Sydney is required to ensure that every publication that it reports for Higher Education's Research Data Collection (HERDC) meets a set of criteria, and each individual criterion has to be validated.

Books

If you have authored a book in the collection year please provide a hard copy or PDF version of:

- the title page
- the page with the imprint and the ISBN on it
- the Preface and/or Foreword

Book chapters

If you have authored a book chapter in the collection year please provide a hard copy or PDF version of:

- the title page
- the page with the imprint and the ISBN on it
- the Preface and/or Foreword
- the contents page
- the page which shows the affiliations of the authors of all the chapters
- the chapter

If the book is a new edition of a previous book your chapter will only count if it is a chapter which did not appear in the previous edition.

Please forward the verification materials to Megan van der Hoeven in the Office of Research and Research Training:
