

Sydney Medical School Scholarship information evening

Local research students, 2010

How to apply for an Australian Postgraduate Award and other research scholarships

Come to a one-hour presentation by Associate Professor Brett Hambly, Faculties of Health representative on the University of Sydney Postgraduate Awards sub-committee and Dr Jenny Nicholls, until recently the Sydney Medical School Scholarships Officer.

Find out more about:

- the eligibility criteria for the APA/UPA
- what to include in your application to maximise your chances of success
- how best to present your information.

You will also have the opportunity to ask questions.

If you are completing your Honours degree this year and expect first class honours, or have gained Hons 1 in the last five years, then this information evening may not be of much benefit as your application is very straightforward.

Date: Wednesday, 7 October

Time: 6pm - 7pm

Where: Norman Gregg Lecture Theatre,
Edward Ford Building (A27), Fisher Rd

Note: The presentation will be available at www.medfac.usyd.edu.au/scholawards/postgrad/research_apply.php a few days after the presentation.
