

Sydney Bioinformatics
presents

Microarray Workshop

Wednesday June 6

Sydney Bioinformatics is running a one day workshop in microarray analysis with **Dr Jean Yang**. The workshop is designed for scientists, researchers, and data analysts who are planning or currently performing microarray experiments. A basic familiarization with microarray technology and associated data structures will be assumed.

The lectures will address various commonly encountered problems in gene expression studies. The participants will have the opportunity to apply statistical methods to several datasets provided.

The workshop is limited to 20 participants.

Registration cost: \$200 (University of Sydney staff/students), \$220 (Other)

Registration form: Located at <http://www.angis.org.au/education/courses.php> or email scattley@angis.org.au

Date of Course: Wednesday June 6, 9.30am — 4.30pm

Location: Medical Foundation Building, Rm 142

Morning tea, Lunch and Afternoon Tea will be provided
